

Treatment Log (Form Log01)

For the 12-month period to be assessed (1/7/18 to 30/6/19) please provide treatment numbers performed by itemising each treatment performed. Please start at the most recent treatment and work backwards until you reach the target required as specified in the attached guidance notes (e.g. 40 for Botulinum toxins). Please do *not* provide any confidential or personal identifiable information, such as patient name. Your peer or supervisor must then review this log against the evidence e.g. your diary or booking system or patient notes, before signing the statement form to confirm accuracy.
