

# The JCCP welcomes MAP-IQ as a new Approved Education and Training Partner

The JCCP is delighted to welcome MAP-IQ as a new JCCP approved RPEL education and training provider.

In recognition of Recognised Prior Experiential Learning (RPEL) MAP-IQ provides experienced aesthetics practitioners with access to an assessment process to achieve a VTCT Ofqual regulated level 7 Diploma in Clinical Aesthetics. This qualification has been approved by the JCCP.

Regulated healthcare practitioners who hold Category 2 registration on Part A of the JCCP register or who meet MAP-IQ entry/experience requirements to the programme are able to proceed straight to assessment without having to undertake the full learning programme or repeat previous education and training in clinical aesthetic practice.

For further information please visit <https://map-iq.org/>
