

Press Release - JCCP Publishes Updated Premises Standards; A Good Practice Guide for Education and Training Courses and a Simplified Application Form for JCCP Approved Education and Training Provider Status.

The JCCP has today published three new documents on its website:

- Updated Premises Standards;
- Good Practice Guide for Education and Training Courses;
- Simplified Application Form for JCCP Approved Education and Training Provider Status.

Updated Premises Standards

The JCCP has worked with multiple stakeholders to update and revise the previous JCCP Premises Standards in preparation for the proposed licencing scheme for non-surgical cosmetics in England. The JCCP has worked alongside key clinicians and members of the JCCP Clinical Advisory Group to produce these guidelines which are also aligned to advice provided by the Chartered Institute for Environmental Health. **View the new standards here:** <https://www.jccp.org.uk/Home/AgentResource?id=6&type=3>

Good Practice Guide for Education and Training Courses

The JCCP is aware that there is considerable variation in the approach that the aesthetic and non-surgical cosmetic industry takes to providing education and training, as well as discrepancies within how education and training providers take to promoting courses, and the form of courses offered to students/trainees, as part of initial qualifications, career development and Continuous Personal and Professional Development.

This good practice guide has been written to support education and training providers in the aesthetics and non-surgical cosmetic sector with their pathways and programmes to educate and train, and well as supporting those seeking to develop their own individual knowledge and skills and as part of necessary CPPD in the dynamic aesthetics and non-surgical cosmetic sector.

The anticipated DHSC licence for non-surgical cosmetic practice is reported to include the need for all practitioners who provide procedures that may be included in the scope of the licence to demonstrate that they have achieved a minimum standard of education and training (which is yet to be determined following public consultation next year). This is essential to ensure patient safety, and thus should be a central pillar of a future licensing regime.

This good practice guide in part supports achieving minimum standards in education and training for providers, and furthermore the competence of individuals thereof, and sets out the JCCP's expectations regarding ethical and accurate advertising of training courses in the sector. The guide also differentiates between pre-qualifying training courses (designed for practitioners to acquire the requisite knowledge and practice competencies to perform non-surgical procedures both safely and effectively) and short courses and CPPD courses. **View the Good Practice Guide here:** [https://www.jccp.org.uk/ckfinder/userfiles/files/JCCP%20Good%20Practice%20Guide%20for%20Education%20and%20Training%20in%20the%20Aesthetics%20Sector\(2\).pdf](https://www.jccp.org.uk/ckfinder/userfiles/files/JCCP%20Good%20Practice%20Guide%20for%20Education%20and%20Training%20in%20the%20Aesthetics%20Sector(2).pdf)

Updated and Simplified Application Form for JCCP Approved Education and Training Provider Status.

The JCCP Education and Training Committee have reviewed and revised the JCCP Application Form for Approved Education and Training Providers. **View the Revised Education and Training Application Form here:** [https://www.jccp.org.uk/ckfinder/userfiles/files/JCCP%20Pre%20approval%20application%20form%20final\(1\).pdf](https://www.jccp.org.uk/ckfinder/userfiles/files/JCCP%20Pre%20approval%20application%20form%20final(1).pdf)

Prof. David Sines CBE, the Executive Chair and Registrar of the JCCP said: "We are pleased to announce the publication of the JCCP's new Premises Standards and our Best Practice Guide for Education and Training Courses, alongside an updated version of the JCCP's application form for Approved Education and Training Providers. These documents are now available on our website. These documents have been produced following stakeholder engagement across the sector and have been supported by the JCCP's Education and Training Committee and Clinical Advisory Group". The JCCP will continue to work closely with key partner agencies in preparation for the awaited DHSC licence for non-surgical practice in England".

NOTE TO EDITORS

1. The JCCP registers practitioners and training providers with the key remit of ensuring patient safety and public protection. It has been established to assist members of the public who are considering non-surgical treatments, such as injections, fillers, lasers, peels and hair restoration surgery. It offers advice on patient safety and how to gain access to registers of approved practitioners.
2. The JCCP practitioner register operates through the Professional Standards Authority which is accountable to Parliament. The JCCP is a UK registered Charity.
3. The JCCP published a 10-point plan in 2021 for Safer Regulation in the Aesthetic Sector, https://www.jccp.org.uk/ckfinder/userfiles/files/10_point_plan.pdf
